00002.jpg

Baseline vs P2 | UAV detector class response | Shared 0–1 scale; no per-image normalization

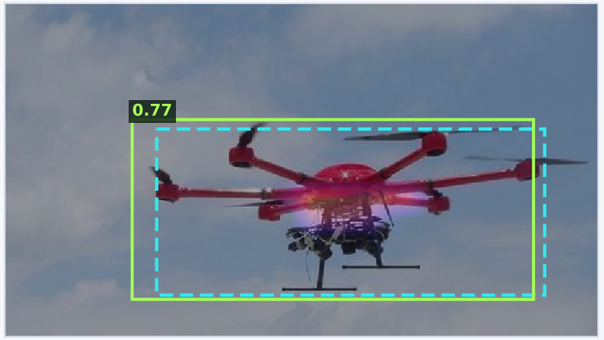

Input + ground truth

Baseline · P3 / P4 / P5

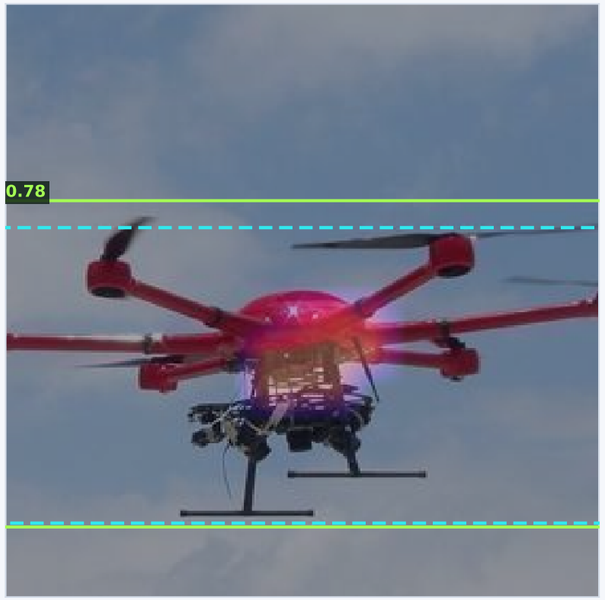

P2 model · P2 / P3 / P4 / P5

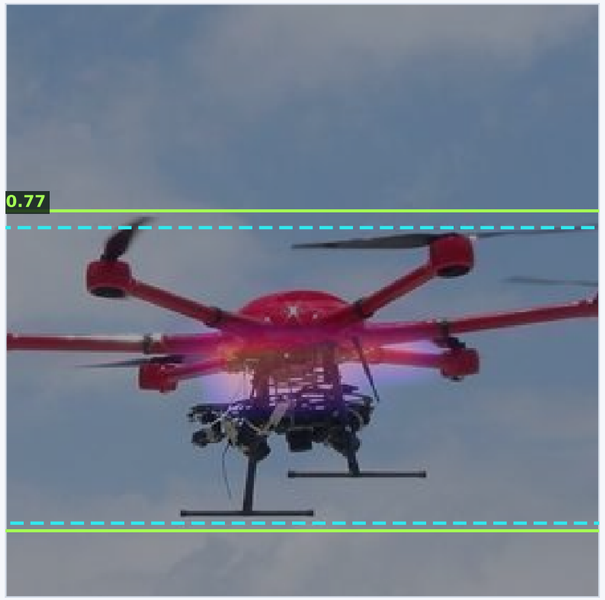

Matched detail

Baseline detail

P2 model detail

Ground truth Prediction (confidence ≥ 0.25) Detail crop boundary

Same crop around the smallest annotated object

Heatmaps show detector scores, not Grad-CAM or causal attribution. Combined response = maximum across detection scales.
